

**Wego Report for Humbug Mountain Weavers and Spinners Guild**  
SPRING 2020

Currently we are:

Working on a member's weaving article for contribution to Handwoven Magazine. It is about her innovative weaving of bags with recycled plastic bags as weft.

We are preparing for summer participation in our Curry County fair. This year we'll provide guild-sponsored awards.

We purchased two rigid handle looms to add to our guild equipment collection. This will help with teaching weaving to our members.

The purchase of the rigid heddle looms will also help prepare for an upcoming WeGO fall workshop featuring the rigid heddle.

Recent Guild Meetings:

January meeting was a hands-on demonstration of winding a warp and warping a loom.

February meeting was about weaving techniques. We learned about different threading and treadling options.

December we did not meet. November meeting we held a Holiday potluck feast, while celebrating four honored members to whom we gave emeritus status.
