

Heritage Textile Arts Guild

Like many of you we have been meeting via Zoom for too many months!!! We have mostly talked about what we've all been doing and planning meetings when we're all vaccinated.

And lots of "show and tell".

We have learned who has new equipment and how they are learning to use it. Several members have new spinning wheels and one has a new electric carder. To that end we have planned a new class and Spin in in May. We should all be vaccinated by then.

Also being planned for June/July is more dyeing-natural, fiber reactive and eco. We have all missed our summer dye sessions.

These events can all take place outside on various patios and we continue to mask and distance.

We were fortunate enough to receive a WeGo grant and several members have signed up for on line classes. Others are exploring in person classes in Eugene and elsewhere.

And, as always, we will be sharing our latest fiber passions while we hope to have sale opportunities in August and December.
