

Gorge Handweavers Fall 2024 Report

We have been busy this year.

I sent pictures to Donna regarding us taking on Timberline Lodge weaving project. It's been quite a challenge from deconstructing the weave of the cushions to find out the size of wool used, contracting with Harrisville Yarns to dye the yarn in the specific reds and other colors needed, then setting up a Leclerc loom with a 50" by 20 yard warp to weave some fabric and we are now weaving.

Weavers Challenge 2024- Weaver's Poker . Several have signed up and the challenge is you pick 5 numbers and you are given what needs to be woven with these 5 categories. 1. Color 2. Relationship 3. Type of Yarn 4. Design 5. Weave structure You can eliminate one of the 5 if you want. It is due next spring.

Monthly a member gives a Tips and Tricks Presentation.

We have had a Linen/Flax Presentation by Shannon Welsh and watched Tom Knisley - Weaving with Linen.

September- We asked for members to weave a name tag being we are growing in membership.
