

Gorge Handweavers Guild
Cheryl Richardson WeGO Rep

Main project that Gorge Handweavers are working on is the Timberline Project.

We completed 17 yards of material in a 3-month period and had a Cutoff Party in January. Lisa from Timberline has picked up the yardage and it is at the upholsterers now.

We have started tying on another warp 25 yards long and almost ready to have it ready to weave.

Articles are getting prepared for possibly HGA, ANWG and some local places.

Just got word that our guild was able to accept the alternate scholarship awarded for the year.

We have a Krokbragd class (3 days by zoom) by Debby Greenlaw in November that is wonderful news to help with offsetting of costs.

2 study groups going: Deflected Double Weave and Tom Kingsley Rag Rugs both videos from Long Threads.
