

Webfoot Weavers Guild Report
April 2025

At our December luncheon, we exchanged our 2024 Challenge placemats. Five of us participated and we each chose a placemat woven by the other four. I had woven quite a few more so everyone in the guild who was at the luncheon received a placemat. The non-weaving participants brought goodies for desert that we all really enjoyed!

In January, we decided that our challenge for this year would be scarves, either woven, knitted, crocheted etc. People who wanted to be involved, filled out an info sheet on color preference, length, width and fiber along with their name and then we pulled them out of the proverbial hat. They will be presented to the owner at our Guild Luncheon in December.

We had 3 new members join in Feb/ March. With them came fresh ideas with one being involved with the Del Norte County fair with a flower group that invited us to bring handmade items which bloomed into the idea of using the triangle loom the Guild had and which no one here has used and have a shawl or two to raffle off. So, we have started on one during our UFO (unfinished objects) get together last month and was worked on after our April meeting. One of our other new people will check in with the Del Norte fair about having us demo there.

We are also tossing around the idea of having a guild booth down at the Port this year at one of the Saturdays that is open for the Bodacious Bazaar. Will depend on the condition of the guild pop up tent and volunteers since a few of us already sell there.
