

KROKBRAGD CLASS COMPLETED FOR WEGO SCHOLARSHIP

3 Day Class of Krokbragd Weaving was held on 11/15-17 by Debby Greenlaw and was done by zoom.

What a wonderful introduction to this Scandinavian weaving technique which produces weft face fabric. It is woven on 3 shafts as a point twill with a 4 thread repeat (1,2,3,2). Always treadled in a constant repeating sequence of 1,2,3 and 3weft picks = 1 row of pattern.

The results are amazing. Many motifs can be made and depending on sett and yarns many different effects are the result.

Debby was very thorough with her explanation and was easy to listen to.

We had a full class (20) which we opened to other guilds which included 3 students from Canada.

Below are some samples of what some of the students made. The Sample was all the same, just different yarns and colors.
