Webfoot Weavers Guild

Oct. 2026

At our May meeting, we discussed if we wanted to demo and have a display booth again at the Del Norte Co. Fair. The Fair requested we have a sheep to finished goods display board. We decided to do it again this year and for raffle items we were going to make baskets. Any kind, from coiled, knitted, felted, crocheted, etc.

June was our annual dye day month and once again, we ice dyed yarns, t-shirts, old kitchen towels and fabric.

July meeting was firming up the schedule to cover the 4 days of the fair, check on the number of baskets made and put together our display board.

No meeting in August as the County Fair was that week.

At our Sept. meeting, we kicked around ideas on how to promote our guild. Foot traffic had been down at the Fair and so far we didn't gain any new members.
One of our members, Christy, who also belongs to a button club, showed us how to make Dorset buttons. She had made up kits of assorted rings to make the buttons.

October meeting had us setting up a date for our December luncheon where we will bring our challenge project to give back to the yarn donor.
We worked on weaving on forked sticks.
