Gorge Handweavers Guild

Members of the guild just completed a 3-day Rep Weave workshop by Rosalie Neilson, Oct 17-19 with a grant by ANWG. I did not attend, so no pictures yet.

The Timberline Upholstery project continues with guild members volunteering their time at the studio. A visit was made to the lodge May 28th with a tour and talk.

Timberline lodge is interested in a group to weave curtains based on the ones currently there. They provide all the materials, though this does take time and volunteers.

The Tapestry Study group meets via Zoom once a month to share ideas and weavings.

The guild discussed ideas for workshops, including ones available online as these have been successful.
