WeGO HTAG Report - Fall 2026

Heritage Textile Arts Guild (HTAG) meets on the 2nd Saturday of the month at Coos Art Museum Studio.

Education Outreach: Following the success of the guild's assistance to the Coos Art Museum (CAM) during spring break, teaching youth how to weave, the guild participated in CAM's Open House event in June to demonstrate spinning and various tools used in fiber arts. Since the open house, there has been more community interest in learning more about weaving, basket weaving, knitting, embroidery, spinning, and fiber processing.

Guild Programs: The guild has continued to hold its monthly meeting with topics ranging from spotting textile mistakes and discussions on how you fixed them, participating in the Blackberry Festival, wet felting, sorting through the guild's library, and lots of show and share.

Upcoming Plans: HTAG is developing a website for the new year. The guild will be participating in the Coos History Museum Holiday Market with textile sales and demonstrations.
