WeGO
Rogue Valley Handweavers Guild Report
October 24, 2026

May 2026
The guild program was "All you ever wanted to know about Felting" presented by Sandie. Sandie spins and dyes fibers for retail and wholesale. She presented numerous felted items along with many samples of roving and fibers. It was an enjoyable and informative program

June 2026
In lieu of a program, guild members presented their projects for the Guild Challenge, which was to weave something in twill. Afterwards, the guild had a potluck, gift exchange, stash sale and the usual show and share. The members love this time to socialize and converse about everything fiber and weaving related. Officers for the 2026/2027 year were also elected.

July 2026
A summer board meeting was held in July where a proposed budget was approved.

September 2026
The September meeting was "What I Created this Summer" show and share, which included many interesting pieces. The "Over the Top" community project weaving and knitting shawls, scarves, hats and even socks, for ACCESS program for those undergoing cancer treatment, is going very well. The Guild challenge for this coming year is "Weave Something for the Home." We were treated to a bonus program given by Barb. She spent time in the UK this summer and gave a short PowerPoint presentation of the history of sheep and weaving in Wales. This was followed by a potluck and lots of socializing.

October 2026

October's program is Cobweb Felting presented by Sandie.
